

Built for developers

GitHub is a development platform inspired by the way you work. From open source to business, you can host and review code, manage projects, and build software alongside 31 million developers.

Username

GitHub for teams

A better way to work together

GitHub brings teams together to work through problems, move ideas forward, and learn from each other along the way.

[Sign up your team →](#)

Write better code

Collaboration makes perfect. The conversations and code reviews that happen in Pull Requests help your team share the weight of your work and improve the software you build. [Learn about code review.](#)

Manage your chaos

Take a deep breath. On GitHub, project management happens in Issues and Projects, right alongside your code. All you have to do is mention a teammate to get them involved. [Learn about project management.](#)

Find the right tools

Browse and buy apps from GitHub Marketplace with your GitHub account. Find the tools you like or discover new favorites—then start using them in minutes. [Learn about integrations.](#)

Security and administration

Boxes? Check.

We worry about your administrative and security needs so you don't have to. From flexible hosting to authentication options, GitHub can help you meet your team's requirements.

846532 is your GitHub
authentication code.

Code security

Prevent problems before they happen. Protected branches, signed commits, and required status checks protect your work and help you maintain a high standard for your code.

Access controlled

Encourage teams to work together while limiting access to those who need it with granular permissions and authentication through SAML/SSO and LDAP.

Hosted where you need it

Securely and reliably host your work on GitHub using GitHub Enterprise Cloud. Or deploy GitHub Enterprise Server in your own data centers or in a private cloud using Amazon Web Services, Azure, or Google Cloud Platform.

Integrations

Build on GitHub

Customize your process with GitHub apps and an intuitive API. Integrate the tools you already use or discover new favorites to create a happier, more efficient way of working.

[Learn about integrations →](#)

Sometimes, there's more than one tool for the job. Why not try something new?
